## LETTER TO EDITOR JONES

Anthony, Texas  
Dec. 27, 1958

Rev. J. W. Jones, Editor  
The Community Citizen  
New Albany, Miss.

Dear Sir:

Please accept my heartiest congratulations of your excellent editorial in your Christmas issue. It was truly great. I wish our Modernist Methodist and Baptists might all read and accept it.

Will enclose some stamps for some copies and would also like two or three of the Dec. 4 issue in which my previous article appeared. The powers of darkness are closing in and have unlimited financial support and unless our people waken quickly we will be under the same dictatorship that now misrules Russia, Hungary and China.

"Satan hath come down to us having great wrath because he knoweth that his day is short." Many deceivers have entered into the world and are now doing their greatest evils thru the apostate churches, as always.

Our own government is honeycombed with enemies and the fact is well known to those in the seats of power at Washington, and nothing is done about it. Our only defense left is in Christ Jesus, the Lord but few have time among us to even listen to what He has to offer, so they go on blindly rushing about for swiftly depreciating dollars and gadgets that all too soon will be swept away.

The Mental Health racket planned in London in 1948 is financed without limit and has caused laws to be enacted in the majority of states that any health or peace officer can arrest anyone they see fit and rush them to an insane asylum without a warrant or appearance before any judge.

These vicious laws carry a non-liability clause protecting all who take part in such crimes against their fellow men against either civil or criminal action. Millions are being spent to get these enacted and to poison our food with chemicals and minerals.

It has been reported that 921 million pounds of these inorganics went into the food and drink of our people in 1953 while the Delaney committee in Congress found that the amount was being increased rapidly.

This is the ancient hermetic system used on conquered peoples by the alchemists in Babylon and Egypt in earliest times to render the people submissive to their new masters. All these chemicals and minerals are inorganic, hence indigestible and unassimilable.

Surely our times call for solemn assemblies with fasting and prayer, for bitter repentance and confession of our sins and follies and failures to fulfill our allotted duties as Christians. Prayer, in deep humility is our only means of approaching His throne, yet prayer in its true sense is not allowed in these Modernist churches, much less humility.

May God look upon this drugged, blinded and betrayed people in mercy and open their eyes to what is coming upon the earth.

Hubert H. Heath

## Soil Still Good After Heavy Corn Years

Close spacing and high fertility, practices which have boosted per-acre corn yields in Mississippi about 50 per cent in recent years, apparently do not exploit or deplete soil resources. Research agronomists have continued to get high yields year after year in a study of the longtime effects of these practices. Intensive cropping may aggravate deficiencies of micro-nutrients on some soils and continued use of acid-forming nitrogen fertilizers make it necessary to add lime periodically.

## Boom Year Seen For Mississippi

Jackson—Secretary of State Heber Ladner predicted that 1959 "is going to be a boom year in the industrial and business development of Mississippi."

The state official based his assertion on fees collected by his office for issuance of domestic corporate charters and in qualifying foreign corporations to do business in the state.

Mr. Ladner said during the past six months that fees totaling \$115,184 have been collected, the largest for a like period in the history of the state.

"Mississippians, as never before, are beginning to buy into the future development of our state by investing their idle dollars," the Secretary of State said. "In 1946, citizens of this state received only 10 million dollars from stock dividends, whereas for the year 1958 they will receive from stock dividends approximately 30 million dollars, which is the highest increase of any state in the South."

"Good fortune awaits all Mississippians if we will pursue, with faith, the task before us—that of converting our great potential in natural resources into maximum production. It is incumbent upon all Mississippians to do whatever is necessary toward reaching this goal."

"Because of the recent fabulous discoveries, there is no longer any doubt that Mississippi is going to become a major oil and gas producing state, and our fortune in the development of the timber industry is unexcelled in the nation," secretary of State Ladner said.

## Miracle Fiber — Cotton

The number one crop of Mississippi's farms for more than a century is still writing history as a new miracle fiber. We eat it, wear it, even sleep on it — yet few people are aware of all the oddities and contrasts surrounding the fabulous fiber: cotton. New uses are being found for cotton all the time, and for the future, chemists talk about a treatment for cotton that will make it wrinkle-proof — another to prevent it from soiling — a third to prevent it from wearing out. But in the face of all the new promises and products, cotton's biggest use today — cloth for garments and household use — is the same as it has been put to for over 5,000 years.

The harder it is to see, the slower you should drive, advises the Allstate Safety Crusade. Reduced speed gives a driver more reaction time to avoid hazardous situations that may arise.

Common sense should show how important it is to keep windshield, windows and lights clean particularly when visibility is poor, the Allstate Safety Crusade says. A film of dirt can reduce visibility as much as 40 per cent, while at the same time intensify blinding glare from oncoming lights.

It's to a driver's advantage to read between the lines when he approaches a car stopped at a crosswalk, says the Allstate Safety Crusade. Passing is too risky, because the stopped car is a good indication that a pedestrian is crossing the street and is hidden from view.

And blessed is he whosoever shall not be offended in me.—Matthew 11:6.

In 1907, New York ordered its first motor-driven fire engine, ushering in a new era of scientific fire fighting. Those who man today's modern fire equipment are aided by millions of volunteer Junior Fire Marshals across the country.

## Safety Responsibility Law Explained

Officials of the Mississippi Association of Insurance Agents commend Commissioner of Public Safety Tom Scarbrough (third from left), for bringing to the attention of the motoring public provisions of the Mississippi Safety Responsibility Law as recently amended by the 1958 session of the Legislature.

One million pamphlets explaining provisions of the Safety Responsibility Law in non-technical language will be distributed by the Department of Public Safety during October. Left to right: Clant M. Seay, Jackson, secretary-manager of the Association; Victor McDearman, Jackson, chairman of the accident prevention committee of the Mississippi Association of Insurance Agents; and T. L. DeLashmet, Jr., Moss Point, vice-president of the Association.

## THAT'S A FACT

THE VOICE IS MIGHTIER THAN THE SWORD

THE GREAT SHON BOLIVAR SCORED HIS FIRST VICTORY OVER THE SHAWBY BY A RUSS. HE HAD HIS SCANTY ARMY BEHIND ROCKS, ORDERED THEM TO MAKE ENOUGH NOISE TO INDICATE THEY WERE A GREAT ARMY, AND THEN TALKED THE COMMANDER OF THE FORTRESS OF TENERIFFE INTO SURRENDERING TO SUPERIOR HUMBERS'.

THAT'S WHAT WE ARE—BECAUSE WE'RE TELLING YOU ABOUT THE GREATEST SAVING METHOD IN THE WORLD. WE MEAN U.S. SAVINGS BONDS, AND SAVINGS BONDS PLAN IS THE BEST WAY TO GIVE YOURSELF A GRIP ON FUTURE SECURITY!

### CIRCULAR TIME

ONE OF THE EARLIEST SYSTEMS OF MEASURING TIME WAS THE TREE, CIRCLE AND SHADOW METHOD. CONCENTRIC CIRCLES DRAWN AROUND THE BASE OF THE TREE WOULD SHADE THE PRIMITIVE MAN TO JUDGE THE TIME BY THE EXTENT OF THE SHADOW!

And now—

DON'T FORGET THAT THE NEW SERIES B BOND PAYS 3 1/4% INTEREST WHEN HELD TO MATURITY! AND IT MATURES EARLIER—8 YEARS 11 MONTHS. GIVE YOURSELF A BREAK AND START BUYING U.S. SAVINGS BONDS NOW!

## LETTER TO EDITOR JONES

Owner-Publisher J. W. Jones  
The Community Citizen

Dear Mr. Jones:

Wish you and your family a pleasant and helpful Christmas Season and return for every citizen our constitutional form of republic government in the year 1959 A. D.

Thank you for the able editorial in December 18, 1958, issue of The Community Citizen for survival of your and my race, heritage of independence and freedoms bequeathed to us by Christian men and women who loved their country more than social popularity, political office with power over the lives of others or even life which they gave freely that we might have these blessings which so many citizens vote for men to destroy as you point out in your editorial.

October 16th Reverend Glenn E. Smiley, National Field Secretary, Fellowship of Reconciliation, whatever that may be, was given 40 minutes to relate amusing incidents he directed 9 Negro students how to create in Little Rock Central High School during the school year of 1957-1958. At close of his brainwashing I asked for permission to give a talk to same students in one of our high schools located in fine residential districts and the teacher gave me October 21st. October 17th he called me and said: "Mr. Baxter, I hate to do this but I have to. I have to cancel your permission." A check disclosed Curriculum Director of Seattle Public Schools was the one who had an intimate interview with Reverend Smiley at close of his misleading talk. Then asked him why he refused to let me speak to those students. Without denying he was the one who refused he said he was referring my request to "Appropriate Committee". Then asked him if he referred Reverend Smiley's invitation to speak to the "Appropriate Committee". Without answering either question and many more in my letters he said he was going to refer my request to the "Heads of Social Studies" for their decision. Then asked him if he referred the Reverend Smiley's request to the "Heads of Social Studies Department".

Late in November he sent me refusal to speak without an answer to any of my questions. Then I submitted all the facts on Reverend Smiley's brainwashing to a prominent attorney and former Dean of University of Washington Law School with a list of 13 history books used to brainwash students in the United States, of which "The Making of Modern America" in that list is being used in Seattle Public Schools. He has taken over job of leader of movement to expose the Reverend Smiley brainwash and use of that history text book to brainwash students against their country. You can get that list of history books by writing to President Merwin K. Hart, National Economic Council, Inc., 7501 Empire State Building, New York City 1, New York, and ask for Council Letter No. 442. I have distributed 200 copies but don't have one left now. Will let you know how we come out.

Sincerely your friend,  
Charles M. Baxter

Headlights, not parking lights, should be used during the hours of dusk and dawn, says the National Safety Council. Parking lights mislead both drivers and pedestrians in judging distance and speed.

When sewing wash-and-wear cotton fabrics, adjust correct stitch and tension on sewing machine to prevent puckering. For most fabrics, 12 to 14 stitches to the inch with a fine needle will work well. Use mercerized cotton thread.
